

# The pressure is off with Heels-Off.

*F314 warns that “pressure ulcers on the heel are occurring more frequently.” The best way to prevent heel pressure ulcers from forming or to speed the healing of existing ulcers is to “off-load” the heels. Heels-Off from Skil-Care lifts sensitive heels off the bed for total pressure relief.*

## Heels-Off

- Off-loads both heels to prevent pressure sores
- Aids in the healing of existing ulcers
- Keeps heels off sheets to prevent shear and friction
- Elevates legs to relax spine
- Reduces leg and lower back discomfort

Heels-Off features a comfortable convoluted foam surface that contours to position and stabilize legs. The Low-Shear cover protects the calves against skin-damaging friction and wipes clean for easy care.

Reorder #	Size	Unit
503150	Medium-Large (24" x 16" x 7" x 5 1/2")	Each
503151	Small (24" x 13" x 5" x 3 1/2")	Each
